User Interfaces:

Design Explanation

In our milestone, we focused on making the website look clean and easy to use. Here is a simple explanation of our design:

Colors: We used calm colors like beige and brown because they match the "Candle" theme. We didn't want the colors to be too bright so the user can focus on the products.

Simplicity: We used Bootstrap to make sure the website works on all screens (Laptops and Phones). The layout is a simple grid, so everything looks organized.

Navigation: We made the Menu (Navbar) very simple. Any user can find the Home page or Login easily without getting lost.

Admin Dashboard: For the Admin page, we made sure the management tools (Search, Edit, Delete) are clear and right in front of the Admin to save time.

Consistency: All our pages have the same style, same header, and same footer so the website feels like one complete project.
